Subject: Beaverhead Watershed Committee - Lower Spring Creek 319 application

Dear Robert and 319 Review Panel,

This email is in regards to the Beaverhead Watershed Committee/Beaverhead Conservation Districts application for 319 funding on the Lower Spring Creek Restoration project. The BWC regrets to inform the panel that that they will not be submitting a final application at this time due to a sale pending on the property and the landowner not wanting to enter into a contract at this time. The BWC will continue to work with the Lessee on improving water quality and in-stream flows for this reach of Spring Creek. Thank you for the time and assistance that was provided for this project. If you require further information or have questions please contact me at (406) 988-0191 or email beaverheadwatershed@gmail.com.

Sincerely,

Katie Tackett
Grants Administrator/Watershed Coordinator
Beaverhead Conservation District
Beaverhead Watershed Committee
